This is the exhibition project of Andrea Freckmann and Theun Govers, two painters from Holland. In November 2014 they had a duo-exhibition at Maurits van de Laar Gallery in The Hague, The Netherlands, titled 'Fremdhaus'. In this exhibition the artists successfully brought their works together: situations and scenes which might happen in the different chambers of a house (Andrea Freckmann) in combination with painted architectural spaces (Theun Govers).
